# INTRODUCTION

## WHAT IS EMPLOYEE MANAGEMENT SYSTEM?

Details of  
employees

Overriding problems  
prevailing in practising  
manual system

Maintains personal and  
official details of  
employees

# Facts of Manual System

As manual system is standalone normal employees cannot track their employment status

It used to take much time to find any employee

Not very much accurate.

Danger of losing the files in some cases.

Complicated searching, editing & updating.

it is much complex to interact with existing EMS.

# SOLUTION

The proposed system is intranet based system so employee can also participate in this system and track their status.

The proposed system provides detail general information about the employee along with Educational, Certification, Skill and Project details.

It enhances the HR Management in adding, viewing and updating employees' details and generates various reports regarding employee skill and experience.

The proposed system of HR Module is the right software to be incorporated into the Automation of HR Software for helping the organization needs with respect to skilfull Human Resource.

# Users List

# Conclusion

Manual system takes both time and hard work. There could be possible fault and errors in this system. So automated system will reduce both hassle and work load. It will make over all process much simple.

Thank  
you
